

An integrated solution bringing together best-in-class productivity tools, security and device management. Microsoft provide a suite of enterprise services available from **as little as £4.35 per person**, per month.* Outbound™ offer a number of services in this space and will match or beat your current pricing.

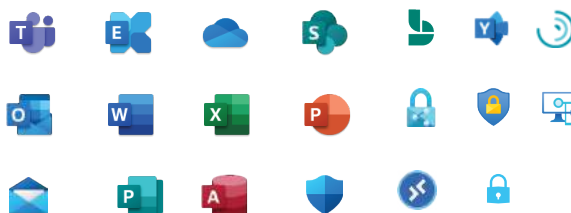

*pricing may fluctuate slightly

Microsoft 365 Business Services

All the premium applications you need to build your business in one simple package.

Free 365 Assessments

We can carry out a free online assessment of your 365 environment, from productivity reports to configuration to security and check your environment is aligned to best practices.

Microsoft 365 Plans

If you are paying Microsoft or another partner for your licenses please get in touch, we offer extra value and discount on all these services for our Microsoft customers.

Managed 365 Services

We take the headache of management away from you, 365 management, monitors, support, adds/moves/changes and security.

Backups 365

Did you know once you delete your data from 365 its gone forever* - we offer 1 year and unlimited years retention for email, OneDrive, Teams chat/data, SharePoint on a full managed service.

*depends on license model and retention model

Governance 365

Managing a single 365 environment can be quite a job, multiple admin centres, rules, policies and configuration in different places. Our 365 Governance service provides a single no code platform that we manage for all your security, compliance, governance and 365 automation requirements in 365. It's like having a full time Security and Compliance Officer virtually. Reduce sprawl, increase security, save licenses and reduce risk.

Projects 365

Migrations - to and from on-premise; or 365 to 365; Google to 365 - we can take care of your migration and training needs.

Intranets - Good value "off the shelf" intranets, fully customised and supported.

Development - custom development, custom applications, workflow, automations - we can take care of these.

Defence 365

Additional email security with our vetted and preferred solutions, fully managed by us.

Reimagine productivity with Microsoft 365
